

CV for Erling Molde

Address: Prost Refsums veg 21
2005 Rælingen

Mobile: 91 69 66 40

E-mail: erling.molde@online.no

Born: 30.08.1957

Marital status: Separated, 3 adult children

Key Qualifications

Long experience in developing web applications in Java, relational database programming, and design of data models. Has participated in the development of all application layers and integration with other systems. Also has experience from the development of portlets.

As a person, I am social and sociable. I feel the best when I get focused and I'm motivated by getting feedback on the job I deliver. Have received feedback from former colleagues that I am a responsible and helpful employee who works well both in teams with others and independently. Contributes to a good working environment through humor and generous sharing of work experience and knowledge.

Co-owner of InfoRed AS. Owner of MoldeSoft AS.

Work experience

2016 - 2016	Kommuneforlaget, Oslo:	Java developer / consultant
	Developed a new public portal for <i>Styrevervregisteret</i> . Installed portal software and developed search portlet against existing web service that delivers data.	
2015 - 2017	Green Cube Management, Oslo:	Java developer / consultant
	Further development of customerweb and internalweb features for customer and delivery management, and inventory control.	
2012 - 2014	Protector Forsikring, Oslo:	Java developer / consultant
	Worked with minor changes in the CRM tool from Microsoft. Worked as a developer in teams with tasks in further development and support on the company's web-based insurance systems. I also developed a micro-service for storing of large documents. The work was carried out in accordance with principles of agile development methodology. As a tool, Atlassian JIRA was used. I also conducted conversion of the code base of all projects from CVS to Git.	
2014 - 2017	MoldeSoft, Rælingen:	Java developer / consultant / owner
	Assignments as mentioned above, as well as error correction and further development for Kommuneforlaget as a consultant from MoldeSoft.	
2004 - 2014	InfoRed, Oslo:	Java developer / consultant / co-owner
	Worked as a consultant and developer of web applications for the municipality and Telenor in cooperation with the representative of the client and with colleagues in InfoRed.	
2003 - 2003	TalkPool NUF, Oslo:	Java developer / consultant
	Worked on developing portal solutions for municipalities on Telenor's portal platform, Epicentric.	
1997 - 2003	Telenor/Bravida, Oslo:	Web developer

Worked on developing information solutions for internal use in Telenor based on web technology, for news publishing and content management. The solutions were also offered to external customers, and installed and adapted to their wishes and needs.

1981 - 1997	Televerket/Telenor, Oslo:	Tele-ingeniør
	Worked on the operation of mini-machines, programming of help programs in assembler, Fortran, Pascal and PLANC, as well as working with support.	
1978 - 1978	Teledirektoratet, Teleskolen, Oslo:	Tele-ekspeditør
	Worked as an office assistant.	
1977 - 1978	Military service	Private / Vice corporal
	Six months in the radio body at Jørstadmoen. Six months as a radio telegraphist and radio operator in northern Norway.	
1977 - 1977	Teledirektoratet, Kabelkontoret, Oslo:	Tele-ekspeditør
	Worked as an office assistant.	

Education

1978 - 1980	Televerkets ingeniørhøyskole , tele-ingeniør
1976 - 1976	Televerkets kontor- og ekspedisjonslinje , tele-ekspeditør
